Chapter 1

Discovery

Push, come on. You'll never know what you'll find.

I come across something hard that made me stop in my tracks.

Clink

I take my brush from my pocket and slowly remove the earth off the object.

My heart stops dead fast.

“Sir? Sir!” I cry out excitedly.

“What is it Hind?” the Overseer cries out annoyingly, a frown pulled across his face.

But his attitude changes as soon as he sees what is in my hand.

“Oh, my word. Mustafa, get over here, NOW!”

“Yes sir.”

“Get the Boss, tell him we’ve found something.” He grinned menacingly.

Chapter 2

Empire

Bones. I found bones. But not just any bones.

Bones with treasures around them.

Egyptian treasures.

But finding stuff like this in Somerset cannot be real, can it? I mean, the Egyptians never came to Britain, did they? However, my doubts were blown away by the Overseer shouting, telling everyone to listen up. Before you

knew it, the whole team was ordered to stop whatever they were doing and to start digging.

I should have introduced myself. I am Hind Ali. I am an excavator and archaeologist, my first time on the job.

“Hind, Mustafa, I need you to carry on working in the exact same area you found the bones. This could make us famous.” the expedition leader says, as I glance over at the mountain thoughtfully.

Chapter 3

The Mountain There

The mountain.

It had been on my mind all day. If the Egyptians did come to Britain, they would have had to been ruled by someone. Then it just.

Clicked

The next day, I found that a man had fallen of the mountain. The search was too dangerous to carry on.

Chapter 4

Creatures

Khufuamon

The workers soon became anxious, scared they would fall too.

“We have to keep working, come on, please!” I pleaded.

In the end, they were convinced and the earth was uncovered.

The person's name was,

Khufuamon

Listen to his story, it may surprise you...

Once my brother, Tutankhamun, became king, I was banished from the kingdom at age 5 with a slave. I wished to go home to

my riches. As we sailed a boat for about 2 weeks, we saw land. I saw the people there and ordered a meal but they did not understand me. I was upset and hungry, not eating proper food after weeks. After a few years of living there, I learnt their language and managed to encourage them to worship the god Anubis. Slowly, I managed. They made me king and built this pyramid for me. I became pharaoh.

Khufuamon did not speak of any children or partners, we assume that the civilisation died down because there was no one to rule. He tried to bring Ancient Egypt civilizations to Britain. I wonder what would have happened if he succeeded? Mummified beside him, there was a snake, a symbol of protection, and a phoenix, symbol of immortality.
